“The Awesome Creator”

Psalm 19:1-2 & selected passages

Pastor Bill Hoffman

Genesis 1, John 1:1-4. What do these passages say or imply about the who, how, when and why behind the material world?

Psalm 19:1-5, Romans 1:20. What do these passages claim we can know of God’s character from creation?

- How does affirming God as creator impact your understanding of God? The material world? Yourself?

Some do not believe in God as creator because they think God is part of creation. Others believe the universe either has always existed or came into being by itself without a Creator.

- What might be some a) biblical and b) rational and/or philosophical ways to show the reasonableness of believing that God created the universe?

To further explore the relationship between what the Bible teaches about God as creator and ideas that are common among secular scientists today, do a web search for videos in your particular area of interest by: Greg Koukl, John Lennox, or Sean McDowell.
