### **“Religious People Need to Repent?”**

#### **Acts 3:11-20**

#### **Pastor Bill Hoffman**

- What are your associations with the word “repent,” and to whom does it most apply?
- Note that Peter is addressing people gathered in the Temple court, presumably for worship and teaching. From what did these people need to repent?
- Note the positive results of repentance Peter highlights in verse 19. What is meant by these and how important are they to you?
- Can you think of an attitude or something our church regularly does or fails to do that hinders us from faithfully following Jesus? What would be the requisite attitude or action we might turn toward that would be more in alignment with following Him?
- Answer the same questions with respect to your own life.
- Picture what our church would look like – and what your life would look like – as a result of this kind of repentance and turning toward God.
